

SURAT TUGAS

No. 005A/TRILOGI/FSTD/TGS/II/2022

Dekan Fakultas Sains Teknik dan Desain Universitas Trilogi, menugaskan kepada :

No	Nama	NIDN	Program Studi
1	Abdul Haris Rustaman, S.ST., M.Ds.	0331128804	Desain Komunikasi Visual
2	Damarangga Putra, S.Sn., M.Ds	0327079003	Desain Komunikasi Visual

Untuk melakukan **Penelitian dan Publikasi** dengan masa tugas:

Lama Tugas : Februari – Mei 2022

Judul Penelitian : **The Potential of Art Development in the Present Era: A Case Study of the 'Nggusu Waru' Leadership Philosophy.**

Kami berharap Bapak dapat melaksanakan tugas tersebut dengan sebaik-baiknya sesuai dengan ketentuan yang berlaku di Universitas Trilogi. Atas perhatian dan kerjasamanya diucapkan terima kasih.

Jakarta, 21 Februari 2022

Ir. Yodfiatfinda, Ph.D.
Dekan FSTD

Tembusan Yth, :

- Wakil Rektor Bidang Akademik & Kemahasiswaan
- Kaprodi DKV
- Kepala Biro SDM, Etika dan Hukum

LAPORAN AKHIR

POTENSI PENGEMBANGAN SENI DI ERA MASA KINI : STUDI KASUS TERHADAP FALASAFAH KEPEMIMPINAN 'NGGUSU WARU'

Oleh :

Ketua : Abdul Haris Rustaman, M.Ds

Anggota 1 : Damar Rangga Putra, M.Ds

UNIVERSITAS TRILOGI

2022

Abstrak

Penyelidikan ini dilatarbelakangi oleh Delapan Sifat Kepemimpinan di masyarakat Bima yang disebut *Nggusu Waru* yang berarti segi delapan, hal ini dapat dilihat pada bentuk Mahkota Kerajaan Bima dan *lare-lare* atau Gerbang masuk Museum Asi Mbojo. Inilah yang menjadi inspirasi saya, bentuk *Nggusu Waru* yang terdapat pada Mahkota Kerajaan menunjukkan 8 butir filsafat kepemimpinan yang baik. Di satu sisi masyarakat Bima sendiri banyak yang belum mengetahui tentang Delapan Sifat Kepemimpinan *Nggusu Waru*. Seorang budayawan Bima sekaligus penulis buku Petuah Tanah Bima yang saya wawancarai Bapak Alan Malingi menyampaikan bahwa saat ini yang terjadi di masyarakat hampir tidak memenuhi apa yang ada dalam *Nggusu Waru*, maka tugas kita adalah bagaimana melakukan revitalisasi terhadap nilai-nilai yang ada di dalam *Nggusu Waru*. Saya juga mengamati bahwa kecenderungan generasi saat ini dalam menggunakan teknologi sangat dekat sekali. Kolaborasi medium kesenian dan teknologi dapat menjadi alternatif untuk menyampaikan pemaknaan kehadiran *Nggusu Waru* di era masa kini. Proses pengumpulan data dilakukan dengan wawancara, observasi lapangan dan studi literatur, Secara umum metode yang saya gunakan adalah metode kualitatif, selanjutnya saya mengelompokkan potensi media barunya dilihat dari sudut pandang seni, dan teknologi, berikutnya menentukan menentukan *Novelty* nya. Dengan demikian apa yang saya harapkan dari penulisan ini adalah dapat memberikan gambaran terkait potensi pemaknaan Ma *Nggusu Waru* di era masa kini dengan kolaborasi dari kolaborasi seni dan teknologi sehingga dapat menjadi media perenungan falsafah kepemimpinan Ma *Nggusu Waru*.

Kata Kunci : Falsafah Kepemimpinan Nggusu Waru, Pengembangan Karya Seni dan Teknologi

BAB 1

PENDAHULUAN

Saya mengawali tulisan ini dengan ungkapan bahwa mempersatukan tradisi yang ada dapat dilakukan dengan memodifikasinya, kemudian mengambil kebiasaan baru yang baik. Nggusu Waru telah menarik saya untuk membahas mengenai upaya kreatif pemaknaan Nggusu Waru di Era Masa Kini.

Sebagai orang Bima saya memahami arti dari kata *Ma Nggusu Waru* atau disingkat *Nggusu Waru* adalah persegi delapan. Nggusu Waru adalah simbol delapan karakter kepemimpinan dalam budaya Bima. Nggusu Waru merupakan falsafah adalah sebuah konsep, cita-cita, harapan bahwa seorang pemimpin hendaklah dapat memegang teguh delapan sifat Nggusu Waru.

Simbol-simbol Nggusu Waru dapat kita temukan pada bangunan-bangunan yang ada di Bima, seperti yang ada di gerbang masuk Istana Asi Mbojo yang saat ini dijadikan Museum Kesultanan Bima, selain itu bentuk dari Nggusu Waru ini dapat ditemukan juga pada, taman-taman kota, masjid dan sebagainya.

Gambar 1 Mahkota Kerajaan Bima dengan bentuk segi delapan (Malingi, n.d.)

Gambar 2 Kiri: Ma Nggusu Waru di Taman Kota Kodo Kota Bima,
Kanan: Lare-lare Asi Mbojo (Museum Kesultanan) dengan konsep Ma Nggusu Waru atau Nggusu Waru (Rustaman, 2022)

Delapan filosofi dari Nggusu Waru menurut (Dr. Ahmad Badrun, 2008) terdiri dari; (1) *mato'a di Ruma labo Rasu* (yang taat kepada Allah dan Rasul), (2) *maloa ro pade* 'yang pandai dan cerdas', (3) *mantiri nggahi kalampa* 'yang jujur dalam melaksanakan tugas' berarti sama dengan kejujuran, (4) *mapoda nggahi paresa* yang mampu menegakkan kebenaran, (5) *mambani ro disa* adalah sama dengan adil, *mambani ro disa* 'yang bertanggung jawab dan berani', sama dengan berani menanggung risiko, (6) *matenggo ro wale* 'sehat jasmani dan rohani serta kuat' adalah sama dengan sehat jasmani dan rohani, (7) *mapisa ro guna* 'berwibawa dan sakti' adalah sama dengan berwibawa atau berpengaruh, dan (8) *londo dou taho* 'keturunan orang baik baik' adalah sama dengan bermoral baik.

Seorang pemimpin yang memenuhi delapan kriteria Nggusu Waru adalah luar biasa, namun ditengah godaan zaman hedonis saat ini cukuplah pemimpin yang memenuhi empat unsur yaitu takwa, Berilmu pengetahuan, merakyat dan konsisten (Malingi, 2022).

Karakter kepemimpinan pada masa kesultanan, nggusu waru pada saat itu ada sebuah konsep, cita-cita, filosofi adalah sebuah harapan, bahwa seperti ini adanya. Namun pada kenyataan di masyarakat tidak memenuhi itu dengan saat ini, maka tugas kita untuk melakukan revitalisasi terhadap nilai-nilai yang ada dalam nggusu waru itu.

Upaya Kreatif Pemaknaan *Nggusu Waru* Di Era Masa Kini menarik untuk dikaji sebagai khasanah kolaborasi antara seni dengan teknologi. Proyeksi penyajian yang direncanakan akan memberikan gambaran keterlibatan seni teknologi untuk menyampaikan tentang kehadiran Nggusu Waru dalam tren masa kini. Saya mengamati bahwa kecenderungan generasi z dalam pemanfaatan teknologi sangat dekat sekali, oleh karenanya medium pengembangan seni

pemaknaan Nggusu Waru di Era Masa Kini, ini akan saya uraikan dalam bentuk estimasi contoh pengembangan.

Sesuai dengan judul dari artikel ini adalah proyeksi pengembangan virtualisasi kepemimpinan “Nggusu Waru’ Budaya Bima di Era Masa Kini. Maka penulisan ini menitikberatkan pada referensi-referensi terkait yang menjadi rujukan penulis dalam pengembangan penelitian penciptaan kedepan.

BAB 2

KAJIAN SUMBER

2.1 Falsafah Kepemimpinan Ma Nggusu Waru

Pembacaan saya terhadap Falsafah disini bermakna sebagai nilai-nilai luhur dari budaya. Seperti yang sudah diuraikan pada bagian pendahuluan di atas tentang falsafah Nggusu Waru memiliki delapan sifat yaitu taat kepada Allah dan Rasul, pandai dan cerdas, menjunjung tinggi kejujuran, mampu menegakkan kebenaran, adil bertanggung jawab dan berani, sama dengan berani menanggung risiko, sehat jasmani dan rohani, berwibawa atau berpengaruh, dan bermoral baik. Delapan falsafah tersebut mengalami penyesuaian setelah islam masuk ke tanah Bima, artinya sebelum agama masuk ke tanah Bima delapan falsafah tersebut sudah ada akan tetapi nilai-nilai yang di usung adalah ajakan meniru delapan sifat alam yaitu *tabe'a dana* atau sifat tanah yang sabar, *tabe'a oi* atau sifat api yang panas dan kalau salah dimanfaatkan akan membahayakan, *tabe'a angi* atau sifat angin yang menyejukan, *tabe'a moti* atau laut yang menerima apa saja, *tabe'a ura* atau sifat hujan membasahi bumi tanpa pamrih, *tabe'a liro* atau sifat matahari muncul di siang hari dan *tabe'a wura* atau sifat bulan muncul pada malam hari (Malingi, 2022).

Sedangkan secara teks tual, Nggusu Waru yang menjadi adab ketatanegaraan dalam kesultanan Bima adalah *Dou Ma Dei Ro Paja Ilmu* (berilmu pengetahuan), *dou ma dahu di ruma* (orang yang takut kepada Tuhan), *dou ma taho ruku ro rawi* (orang yang baik tingkah laku), *londo ro mai* (keturunan), *dou ma dodo tando tambari kontu* (orang yang melihat kedepan dan tengok ke belakang), *dou ma mbece wombo* (basah kolong rumah atau kaya), *dou ma sabua nggahi labo rawi* (orang yang satu kata dengan perbuatan), *dou ma disa kai ma poda* (berani karena benar). Hal ini dimuat kitab jawharah Al Ma'rif yang diterjemahkan oleh Muhlis dan Dr. Hj. Siti Maryam Salahuddin yang berjudul Permata Kearifan dari Naskah Kuno Kesultanan Bima Jawharah Al Ma'rif.

Ini adalah referensi mendasar yang menjadi pijakan saya untuk memposisikan poin yang akan dimetaphora menjadi karya untuk mengajak (peserta/orang) merenungkan pemaknaan Ma Nggusu Waru. Delapan sifat yang mewakili Nggusu Waru ini dapat dimetaphorakan menjadi tanah, air, api, angin, laut, hujan, matahari dan bulan. Namun hal ini hanya merupakan estimasi

awal saja, karena pemetaforaan akan dilanjutkan lagi pada observasi atau kajian lebih lebih lanjut dalam penelitian berikutnya.

2.2 Potensi Media Baru Kolaborasi Seni dan Teknologi

Saya membayangkan beberapa media baru seperti bentuk virtual reality atau realitas virtual, konsep teknologi ini dapat membuat waktu, ruang dan informasi desain pameran menjadi lebih besar. Beberapa hal yang tidak dapat ditampilkan dalam kenyataan dapat ditampilkan dalam sistem VR. Menurut jenis teknologinya, penerapan teknologi VR dalam desain pameran terutama mencakup aspek-aspek teknologi gambar panorama, teknologi visualisasi 3D, teknologi audio visual stereo dan teknologi desain interaktif (Liu, 2012). Bentuk lain yang juga bisa menjadi alternatif berkarya adalah seni instalasi interaktif dengan teknologi, disini juga saya akan memberi contoh bagaimana estimasi berkarya seni instalasi dengan teknologi.

BAB 3

BAHAN DAN METODE

Bahan terkait dalam penulisan ini yaitu sumber visual, verbal (wawancara), sumber tertulis dari literatur yang berhubungan dengan Falsafah Ma Nggusu Waru dan potensi media baru yang ditawarkan. Sementara metode yang saya gunakan secara umum adalah kualitatif dengan pengelompokan dilihat dari sudut pandang seni dan teknologi. Sehingga saya dapat menentukan Novelty atau kebaruan yang dihadirkan baik yang dibangun berdasarkan *driven by art* (kecenderungan seni/ketubuhan) atau *driven by technology* (kecenderungan teknologi).

BAB 4

TEKNOLOGI SEBAGAI METAFORA SENI NGGUSU WARU

4.1 Teknologi Gambar Panorama

Teknologi gambar panorama adalah penyihir seni visual baru yang berkembang pesat dan secara bertahap populer. Ini adalah jenis fotografi panorama berdasarkan pemrosesan gambar. Ini adalah kamera yang dikelilingi oleh sekelompok foto yang diambil dengan 360° atau menggunakan berbagai foto yang diambil oleh fisheye yang digabungkan menjadi gambar panorama oleh teknologi komputer untuk mencapai tampilan interaktif penuh dari pemandangan nyata untuk mengembalikan tampilan mode. Teknologi gambar panorama bukanlah teknologi VR yang sebenarnya. Tapi itu bisa membawa kesan nyata dari pemandangan dan nuansa interaktif kepada orang-orang. Teknologinya sederhana untuk diterapkan dan biayanya relatif rendah. Teknologi ini diterapkan di banyak tampilan adegan.

Gambar 3 foto panorama 360⁰ (Mahany, 2016)

Novelty yang ingin dibangun dalam pengembangan seni falsafah nggusu waru dengan pemanfaatan teknologi gambar panorama ini sangat memungkinkan untuk memetaforakan karya seperti tanah, air, api, angin, laut, hujan, matahari dan bulan bisa dihadirkan untuk membawa kesan nyata dengan nuansa interaktifnya bagi pengguna, dan hal ini dapat menerangkan atau menampilkan banyak adegan.

4.2 Desain Tampilan 3D

Kehadiran tampilan 3D stereoskopik adalah akar dari realitas virtual (VR) untuk membuat arti yang realistis. Ini juga merupakan salah satu teknologi inti dari realitas virtual. Untuk mensimulasikan fungsi visual secara realistis, konsep ini sangat bergantung pada teknologi tampilan tiga dimensi, pemrosesan gambar, dan pemahaman. Teknologi tampilan tiga dimensi ini mencakup dua macam. Salah satunya adalah produksi perangkat lunak 3D berdasarkan gambar tiga dimensi berdasarkan tampilan panel datar. Selain itu disiapkan sebuah perangkat untuk menampilkan gambar 3D. Teknologi pertama sebagai software dengan pengolahan menggunakan 3dsmax, Maya dan perangkat pemodelan 3D lainnya untuk menghasilkan gambar 3D.

Teknologi kedua adalah teknologi perangkat keras, seperti teknologi proyeksi multi-channel, teknologi pencitraan udara. Teknologi proyeksi multi-saluran dapat mewujudkan tampilan gambar layar di sekitarnya. Kacamata stereoskopik dapat menyempurnakan gambar tiga

dimensi. Teknologi pencitraan udara adalah perangkat keras yang relatif canggih yang dikembangkan dalam beberapa tahun terakhir. Ini dapat menampilkan gambar tiga dimensi di udara, dan memiliki sentuhan interaktif yang sensitif.

Gambar 4 simulasi penggunaan *Virtual Reality* (Amanta, 2021)

Novelty yang ingin dibangun dari desain visual 3D ini akan memunculkan emosi penubuhan yang semakin dekat dengan objek, memicu respon untuk menyentuh, menggerakkan dan sebagainya dan hal ini bisa kita pandang sebagai *driven by art* nya. Tentu saja bila kita bandingkan dengan panorama visual sebelumnya maka pada teknologi VR 3D ini sudah lebih meningkat teknologinya yaitu menggunakan kacamata oculus..

4.3 Teknologi *Visual Audio Stereo*

Produksi suara adalah mata rantai penting untuk mengejar realitas virtual yang realistis. Suara realitas virtual bukan hanya stereo biasa, tetapi lebih dari stereo adalah teknologi suara 3D yang lebih rumit. Hal itu diwujudkan melalui teknologi *head recording*. Ini adalah teknologi lingkungan realitas virtual yang sangat realistis untuk mensimulasikan karakteristik fisik suara dunia nyata. Lingkungan virtual suara 3D memungkinkan pengguna untuk membedakan jarak mereka, dan menentukan lokasi sumber suara. Suara 3D dalam ruang tiga dimensi virtual dapat dipantulkan di permukaan model 3D. Itu juga akan diblokir oleh rintangan. Hal ini akan memberikan pengalaman ketubuhan bagi peserta karena pelibatan indera pendengar secara langsung untuk merasakan sensasi memainkan emosi. Tentu hal ini juga merupakan *novelty* yang akan dihadirkan. *Driven by art* nya sangat dekat sekali dengan pengguna.

4.4 Desain visual interaktif

Pengejaran seni pameran modern bukan lagi presentasi audio-visual sepihak, melainkan lebih pada interaktif. Jadi, desain interaksi dalam teknologi virtual reality sangat penting. Ini juga merupakan tempat yang paling menarik. Saat ini, teknologi interaktif meliputi tiga macam: interaksi lokasi spasial, interaksi perubahan lingkungan dan interaksi perilaku tiga dimensi. Teknologi interaktif meningkatkan kehidupan dan jiwa ke dunia VR. *Novelty* yang dibangun dari visual interaktif ini tentu ada pelibatan pengguna untuk melakukan interaksi terhadap objek seni yang dihadirkan.

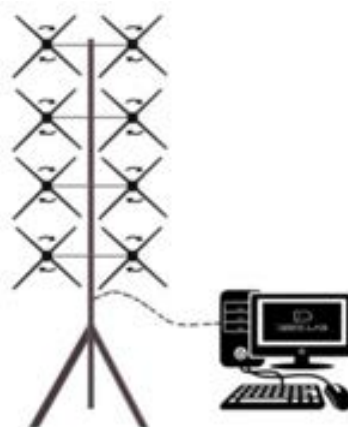

3.7 Instalasi Seni Interaktif

Beberapa pengembangan penciptaan sebelumnya menggunakan VR teknologi, berbeda halnya yang dilakukan oleh (Suryanto, 2021) Proyek yang dikerjakan Suryanto ini adalah instalasi karya seni pada pohon beringin dengan memanfaatkan teknologi board arduino. Pohon merupakan salah satu makhluk hidup yang tidak disadari oleh manusia selain kesadaran akan tumbuhnya pohon. Itu dipahami dari segi fungsinya. Kita tidak pernah memiliki kesadaran bahwa pohon juga makan, minum dan bernafas seperti makhluk hidup lainnya seperti hewan dan manusia. Tujuan pembuatan karya seni di situs tertentu adalah untuk memvisualisasikan konsep hidup di pohon dengan membuat gelembung yang dapat ditiupkan dan dikempiskan (*driven by art*) dalam proses ini melibatkan emosi dari pengguna pada saat memompa. Untuk memperbesar gerakan gelembung, diterapkan ilusi visual dengan menyertakan cahaya yang menyertai gerakan tersebut (*driven by technology*). Untuk menyelaraskan gerak gelembung dan cahaya dibutuhkan perangkat teknologi yang dapat mengatasi hal semacam itu. Proses pembuatan karya seni di situs tertentu membutuhkan observasi. Metode penciptaan dilakukan dengan trial-error, kolaborasi, riset berbasis praktik dengan melibatkan disiplin ilmu lain, khususnya teknologi untuk mengoperasikan cara kerja karya seni.

Gambar 5 Metode penciptaan *the breathing tree*, gambar dan foto hasil instalasi (Suryanto, 2021)

Selanjutnya pada penelitian yang dilakukan oleh (Igenes Rutama, 2021). Proyek ini adalah menampilkan objek 3D menggunakan *Hologram Fan* yang kontrol dari PC atau laptop. Analisa pengembangan yang dilakukan oleh Igenes tentang media pembelajaran anatomi tubuh manusia menggunakan 3D Fan Hologram.

Gambar 6 Purwarupa 3D Fan Hologram Sebagai Media Pembelajaran (Igenes Rutama, 2021)

Proyek ini tidak berbasis seni secara dominan karena memang perancangannya lebih diarahkan kepada fungsional sains. Ada potensi yang saya lihat di sini sebagai alternatif pengembangan penciptaan seni Nggusu Waru, dimana keterlibatan Penubuhan emosi Peserta dalam mengontrol konten anatomi yang dibutuhkan peserta, dengan demikian *driven by art* nya bisa lebih menonjol dari

pada *driven by technology*. Dapat juga ditambahkan *Board arduino* yang diprogram sebagai pengganti dari PC atau laptopnya sehingga cara penyajiannya dapat lebih sederhana.

BAB 5

KESIMPULAN

Falsafah Ma Nggusu Waru atau Nggusu Waru adalah sebuah filosofi kepemimpinan masyarakat Bima yang terdiri dari delapan sifat yaitu taat kepada Tuhan dan Rasul, pandai dan cerdas, jujur, mampu menegakkan kebenaran, adil, bertanggung jawab dan berani, berani menanggung risiko, sehat jasmani dan rohani, berwibawa atau berpengaruh, dan bermoral baik. Falsafah ini muncul jauh sebelum islam masuk ke Bima, dan nilai-nilai kepemimpinan Nggusu Waru terpatriti dalam sifat-sifat dari alam seperti tanah, air, api, angin, laut, hujan, matahari dan bulan. Pemetaforaan seni akan merujuk pada objek-objek tersebut selain merujuk juga pada bentuk-bentuk fisik seperti mahkota, bangunan dan simbol-simbol ma nggusu waru yang ada di Bima.

Potensi media baru sebagai pemicu untuk mengusung novelty atau kebaruan dari seni yang ingin dicipta yang sudah saya jelaskan diatas adalah teknologi gambar panorama, desain tampilan 3D, teknologi visual audio stereo, desain visual interaktif, dan instalasi seni interaktif.

Tulisan ini hanya sebagai stimuli bagi saya agar menjadi bahan pertimbangan dalam melakukan penelitian penciptaan selanjutnya. Namun juga untuk menambah referensi dari pembaca terkait pengembangan seni dengan pelibatan teknologi didalamnya.

Abstract

This investigation was motivated by the Eight Characteristics of Leadership in the Bima community called Nggusu Waru which means octagon, this can be seen in the shape of the Crown of the Bima Kingdom and lare-lare or the entrance gate to the Asi Mbojo Museum. This what inspired me, the Nggusu Waru form found in the Royal Crown shows 8 points of good leadership philosophy. On the one side, many Bimanesse people do not know about the Eight Characteristics of Nggusu Waru's leadership. A Bimanesse humanist and author of the book "Petuah Tanah Bima" whom I interviewed, Mr. Alan Malingi, said that currently what is happening in Bima society is almost not fulfilling towards Nggusu Waru, then our task is how to revitalize the values that exist in Nggusu Waru. I also observe that the trend of the current generation in using technology is very advance. The collaboration of the medium of art and technology can be an alternative to convey the meaning of Nggusu Waru's presence in the present era. The data collection process was carried out by interviews, field observations and literature studies. In general, the method I used was a qualitative method, then I classified the potential of new media from the point of view of art, and technology, and then determined the novelty. Thus, what I hope from this writing is to be able to provide an overview of the potential meaning of Ma Nggusu Waru in the present era with the collaboration of art and technology collaboration so that it can become a medium for contemplating the philosophy of Ma Nggusu Waru's leadership.

Keywords

Nggusu Waru's Leadership Philosophy; Development of Art and Technology

I. Introduction

I started this article by saying that uniting existing traditions can be done by modifying them, then adopting new good habits. Nggusu Waru has attracted me to discuss the creative efforts of the meaning of Nggusu Waru in the Present Era.

As a Bimanesse myself, I understand the meaning of the word Ma Nggusu Waru or abbreviated Nggusu Waru is a square of eight. Nggusu Waru is a symbol of eight leadership characters in Bima culture. Nggusu Waru is a philosophy is a concept, ideal, hope that a leader should be able to uphold the eight characteristics of Nggusu Waru.

We can find Nggusu Waru symbols on buildings in Bima, such as the one at the entrance gate to the Asi Mbojo Palace which is currently used as the Bima Sultanate Museum, besides that the shape of Nggusu Waru can also be found in city parks, mosques and so on.

Figure 1. The Crown of the Bima Kingdom with the octagonal shape (Malingi, nd)

Figure 2. Left: Ma Nggusu Waru at Kodo City Park, Bima City, Right: Lare-lare Asi Mbojo (Sultanate Museum) with the concept of Ma Nggusu Waru or Nggusu Waru (Rustaman, 2022)

The eight philosophies of Nggusu Waru according to (Dr. Ahmad Badrun, 2008) consist of; (1) *mato'a di Ruma labo Rasu*. (who is obedient to 'Allah and the Messenger), (2) *maloa ro bade* (who is clever and intelligent), (3) *mantiri ngahi kalampa* (who is honest in carrying out his duties' means the same as being honest) , (4) *mapoda nggahi paresa* (who is able to uphold the truth), (5) *mambani ro disa* is the same as fair and responsible *mambani ro disa*, who is brave, willing to take risks, (6) *matenggo ro wale* 'physically and mentally healthy and strong' is the same as being physically and mentally healthy , (7) *mapisa ro Guna* 'authoritative and powerful' is the same as having authority or influence, and (8) *londo dou taho* 'offspring of good good men' is the same as good morals.

A leader who meets the eight criteria of Nggusu Waru is an extraordinary, but amid the temptations of the current hedonist era, it is enough for a leader who fulfills four elements, namely a spritual (god fearing person), knowledge, populist and consistent (Malingi, 2022) .

The character of leadership during the sultanate, nggusu waru at that time there was a concept, ideals, philosophy was a hope, that this was how it was. However, the reality in society does not fulfill that at this time, so it is our duty to revitalize the values that exist in the nggusu waru.

The Creative Efforts of the Meaning of *Nggusu Waru* in the Present Era are interesting to study as a treasure trove of collaboration between art and technology. The projection of the planned presentation will provide an overview of the involvement of art and technology to convey the presence of *Nggusu Waru* in today's trends. I observe that the tendency of generation Z in the use of technology is very advance, therefore the medium of developing the art of meaning *Nggusu Waru* in the Present Era, I will describe in the form of an extimation example of development.

In accordance with the title of this article, the projection development of leadership virtualization of "Nggusu Waru' Bima Culture in the Present Era. So this paper focuses on related references that become the author's reference in developing future creation research.

II. Research Method

Related materials in this writing are visual, verbal sources (interviews), written sources from literature related to Ma Nggusu Waru's philosophy and the potential of new media offered. Meanwhile, the method I generally use is qualitative with grouping seen from the point of view of art and technology. So I can determine Novelty or the novelty that is presented, whether it is built based on driven by art (tendency of art/body) or driven by technology (tendency of technology).

III. Results and Discussion

3.1 Ma Nggusu Waru's Leadership Philosophy

My reading of philosophy here means the noble values of culture. As described in the introductory section above, Nggusu Waru's philosophy has eight characteristics, namely obedience to Allah and the Messenger, clever and intelligent, upholding honesty, being able to uphold the truth, being fair, responsible and brave, the same as having the courage to take risks, physically healthy. and spiritual, authoritative or influential, and have good moral. The eight philosophies were adjusted after Islam entered the land of Bima, meaning that before religion entered the land of Bima, the eight philosophies already existed but the values that were carried out were an invitation to imitate the eight characteristics of nature, namely *tabe'a dana* or being patient, the nature of the land, *tabe. 'a oi* or the nature of fire that is hot and if misused will be dangerous, *tabe'a angi* or the nature of the cool wind, *tabe'a moti* or the sea that accepts anything, *tabe'a ura* or the nature of rain soaking the earth without any strings attached, *tabe' a liro* or the nature of the sun appears during the day and *tabe'a wura* or the nature of the moon appears at night (Malingi, 2022) .

Meanwhile, in textual terms, the Nggusu Waru that became the constitutional etiquette in the Bima sultanate were, *Dou Ma Dei Ro Paja Ilmu* (a knowledgeable person), *dou ma dahu di ruma* (person who is fear of God), *dou ma taho ruku ro rawi* (people who have a good behavior), *londo ro mai* (descendants from a good family), *dou ma dodo tando tambari kontu* (people who look forward and look back, who is looking forward about the future and care about history), *dou ma mbeca wombo* ("wet, full of water under their house" meaning that they are rich), *dou ma sabua ngahi labo rawi* (one who's stick to what they said), *dou ma disa kai ma poda* (brave because it's true). This is contained in the book of *Al Ma'rif jawharah* which was translated by Muhlis and Dr. Hj. Siti Maryam Salahuddin, entitled *Jewel of Wisdom from the Ancient Manuscripts of the Bima Jawharah Al Ma'rif Sultanate*.

This is a basic reference that became my basis for positioning the points that will be metaphorically used as works to invite (participants/people) to reflect on the meaning of Ma Nggusu Waru. The eight characteristics that represent Nggusu Waru can be metaphorized as earth, water, fire, wind, sea, rain, sun and moon. However, this is only an initial estimate, because the metaphor will be continued for further observation or study in the next research.

3.2 Potential of New Media for Art and Technology Collaboration

I imagine some new media such as virtual reality, this technology concept can make time, space and exhibition design information bigger. Some things that cannot be shown in reality can be displayed in a VR system. According to the type of technology, the application of VR technology in exhibition design mainly includes aspects of panoramic image technology, 3D visualization technology, stereo audio visual technology and interactive design technology (Liu, 2012) . Another form that can also be an alternative to work is interactive installation art with technology, here I will also give an example of how to estimate installation art with technology.

3.3 Panoramic Image Technology

Panoramic image technology is a new visual arts wizard that is rapidly developing and gradually gaining popularity. It is a type of panoramic photography based on image processing. It is a camera surrounded by a group of photos taken at 360° or using a variety of photos taken by fisheye combined into a panoramic image by computer technology to achieve a full interactive view of the real scene to restore the mode view. Panoramic image technology is not a true VR technology. But it can bring real impression of interactive scene and feel to people. The technology is simple to implement and relatively low cost. This technology is applied in many scene displays.

Figure 3. Panoramic photos 360⁰ (Mahany, 2016)

Novelty that plans to be built in the development of the art of nggusu waru philosophy by utilizing panoramic image technology is very possible to make metaphors of works such as land, water, fire, wind, sea, rain, sun and moon can be presented to bring a real impression with interactive nuances for users, and it can explain or display multiple scenes.

3.4 3D View Design

The presence of stereoscopic 3D viewing is at the root of virtual reality (VR) to create a realistic sense. It is also one of the core technologies of virtual reality. In order to realistically simulate visual functions, this concept relies heavily on three-dimensional display, image processing and comprehension technologies. This three-dimensional display technology includes two kinds. One of them is the production of 3D software based on three-dimensional images based on flat panel views. In addition, a device is prepared to display 3D images. The first technology as software with processing using 3dsmax, Maya and other 3D modeling tools to produce 3D images.

The second technology is hardware technology, such as multi-channel projection technology, aerial imaging technology. Multi-channel projection technology can realize the surrounding screen image display. Stereoscopic glasses can enhance three-dimensional images. Aerial imaging technology is a relatively advanced piece of hardware developed in recent years. It ables to display three-dimensional images in the air, and has sensitive interactive touch.

Figure 4. Simulation of using Virtual Reality (Amanta, 2021)

This novelty that plans to be built from 3D visual design will bring out bodily emotions that are closer to the object, trigger responses to touch, movement and so on and we can see this as driven by art. Of course, if we compare it with the previous visual panorama, this 3D VR technology has further improved the technology, namely using Oculus glasses.

3.5 Stereo Audio Visual Technology

Sound production is an important link in the pursuit of realistic virtual reality. Virtual reality sound is not just an ordinary stereo, but more than a stereo is a more complex 3D sound technology. This is realized through head recording technology. It is a highly realistic virtual reality environment technology for simulating the physical characteristics of real world sounds. The virtual 3D sound environment allows users to distinguish their distance, and determine the location of the sound source. 3D sound in virtual three-dimensional space can be reflected on the surface of the 3D model. It will also be blocked by obstacles. This will provide a bodily experience for participants because it involves the listener's senses directly to feel the sensation of playing emotions. Of course this is also a novelty that will be presented. Driven by art is very close to the user.

3.6 Interactive Visual Design

The pursuit of modern exhibition art is no longer a one-sided audio-visual presentation, but rather an interactive one. So, interaction design in virtual reality technology is very important. This is also the most interesting place. Currently, interactive technology includes three kinds: spatial location interaction, environmental change interaction and three-dimensional behavioral interaction. Interactive technology elevates life and soul to the VR world. Novelty which is built from interactive visuals, of course there is the involvement of users to interact with the art objects that are presented.

3.7 Interactive Art Installation

Some of the previous creation developments used VR technology, unlike what was done by (Suryanto, 2021). The project that Suryanto is working on is the installation of artwork on a banyan tree using Arduino board technology. Trees are one of the living things that humans are not aware of other than the awareness of the growth of trees. It is understood in terms of its function. We never have the awareness that the trees are also eat,

drink and breathe like other living things like animals and humans. The purpose of creating artwork on a particular site is to visualize the concept of living in a tree by creating bubbles that can be inflated and deflated (driven by art) in this process involving the emotions of the user at the time of pumping. To enlarge the movement of the bubbles, a visual illusion is applied by including light that accompanies the movement (driven by technology). For synchronizing the motion of the bubbles and the lights, it requires a technological device that can cope with such things. The process of creating a work of art at a particular site requires observation. The method of creation is done by trial and error, collaboration, practice -based research by involving other disciplines , especially technology to operate the workings of art.

Figure 5. The method of creating the breathing tree , pictures and photos from the installation (Suryanto, 2021)

Furthermore, in research conducted by (Igues Rutama, 2021) . This project is to display 3D objects using a *Hologram Fan* which is controlled from a PC or laptop. Analysis of the development carried out by Ignes on learning media of human anatomy using 3D Fan Hologram.

Figure 6. 3D Hologram Fan Prototype as Learning Media (Igues Rutama, 2021)

This project is not dominantly based on art because its design is more directed towards functional science. I see potential here as an alternative to the development of Nggusu Waru art creation, where the involvement of Participant's emotional development in controlling the anatomical content needed by participants, thus *driven by art* can stand out more than *driven by technology*. You can also add an *Arduino board* that is programmed as a substitute for the PC or laptop so that the presentation method can be simpler.

IV. Conclusion

The philosophy of Ma Nggusu Waru or Nggusu Waru is a leadership philosophy of the Bimanesse community which consists of eight characteristics, namely obedience to God and the Apostles, clever and intelligent, honest, able to uphold the truth, fair, responsible and brave, willing to take risks, physically and mentally healthy, authoritative or influential, and of good morals.

This philosophy emerged long before Islam entered Bima, and Nggusu Waru's leadership values were imprinted in the properties of nature such as earth, water, fire, wind, sea, rain, sun and moon. Art metaphors will refer to these objects in addition to referring to physical forms such as crowns, buildings and symbols of the ma nggusu waru in Bima.

The potential for new media as a trigger to bring out the novelty or novelty of the art that I want to create, which I have described above are panoramic image technology, 3D display design, stereo audio visual technology, interactive visual design, and interactive art installations.

This paper is only a stimulus for me to be taken into consideration in conducting further research on creation. But also to add references from readers related to the development of art by involving technology in it.
