Dear Jose Villalobos
The Editor of Opcion Journal

I send back my paper that I have revised according to the direction of Reviewer 1

Reviewer 1: The overall paper is well written, however, the following comments need to be incorporated before the final publication.

- 1- Problem Statement is not clear, please explain what is the motivation behind this study.
- 2- Need to add some recent studies
- 3- Methodology need to revised
- 4- There are too many grammatical errors, please send your paper to any native speaker for English proofreading.
